Minimum requirements necessary for selection of candidates to follow the B.Sc. Hons in Human Biology are given below. Number of students selected for Hons degree course is decided by the Faculty of Medical Sciences, University of Sri Jayewardenepura each year according to the facilities available.

1. Only candidates who pass all the three Bio-science subjects in the first year examination at the first sitting will be eligible to be selected for the B.Sc.Hons degree course in Human Biology.
2. The B.Sc.Hons degree course in Human Biology is conducted in English medium. Therefore a good pass in English is considered advantageous.
3. Any student subjected to a disciplinary charge or complaint with regard to an examination offense will not be eligible to follow a Hons degree course.

4. Candidates who successfully complete the first year examination in Botany, Zoology and Chemistry can apply for the B.Sc.Hons degree course in Human Biology conducted by the Faculty of Medical Sciences, University of Sri Jayewardenepura. Candidates will be selected by the Faculty of Medical Sciences, University of Sri Jayewardenepura on the results of the first year examination and the performance at an interview.
5. The selected students will follow course in Anatomy, Biochemistry, Physiology for 5 terms and General Pathology, General Pharmacology, General Parasitology, General Microbiology during the 1½ terms. In the Final Year they will specialize in one of the following subjects. Food and Nutrition, Biochemistry, Anatomy, Microbiology.
6. The candidate when selected for the B.Sc. Hons degree course in Human Biology he/she should sign a declaration that he/she understood that the B.Sc. course in Human Biology is not a Medical course leading to the practice of medicine.
7. The course will be conducted entirely in English.
